St. Luke's International University Graduate School of Public Health

Online Open Campus

Public Health Leadership for Sustainability

2021 **10.17** (Sun) **1:00 - 4:30** pm

Keynote Speech (Video message)

Donna J. Petersen

Dean, College of Public Health, University of South Florida
Former President, Council on Education for Public Health

The novel coronavirus infection (COVID-19) pandemic has brought us a renewed awareness of the enormous impact of public health crises on society. It has also reaffirmed the significant role that public health should play in realizing a sustainable society. This event will provide an overview of public health's leadership in a sustainable future from the perspectives of environmental health, global health, and health economics and policy. We will also discuss the significance of individual career development and study at graduate schools of public health for a sustainable career.

Part I: A sustainable future created by public health

Lecture 1

Kazunari Onishi

Associate Professor, Division of Environmental Health
St. Luke's International University Graduate School of Public Health

Sustainable global environment and health - from the perspective of One Health

Lecture 2

Shunsuke Mabuchi

Senior Advisor, Bill and Melinda Gates Foundation

How to apply the lessons learned from COVID-19 - global health

Lecture 3

Kaoruko Tachibana

Executive Officer, Head of Health Policy and Corporate Support, MSD

Public health connects *rongo* (Analects of Confucius) and *soroban* (abacus) in the Health Care System

Panel Discussion:

Moderator

Sachiko Ohde

Professor, Division of Epidemiology
St. Luke's International University Graduate School of Public Health

Part II: Sustainable public health, sustainable careers

Lecture 4

Kohei Onozaki

Professor, Division of Health Policy and Management
St. Luke's International University Graduate School of Public Health

A sustainable career through continuous learning
