

# St. Luke's International University Graduate School of Public Health Online Open Campus

**Part I: Omnibus talk 1:00pm ~** (Language: Japanese with simultaneous interpretation)

## The role and future direction of schools of public health in confronting the COVID-19 Pandemic and future public health crises

We will share the challenges related to healthcare delivery systems and innovation that have been highlighted by the COVID-19 pandemic response and the lessons learned so far with front-line researchers and business leaders, identify future public health challenges, and discuss priorities for schools of public health to address. We will also ask society at large about the commitment of the St. Luke's Graduate School of Public Health to address urgent social issues.
